# About AthiTerra

## A WOMEN-LED FOOD INGREDIENT BUSINESS

AthiTerra is a women-led organisation where over 80% of our team members are women. From farm oversight and quality control to operations and client partnerships, women drive every stage of our business.

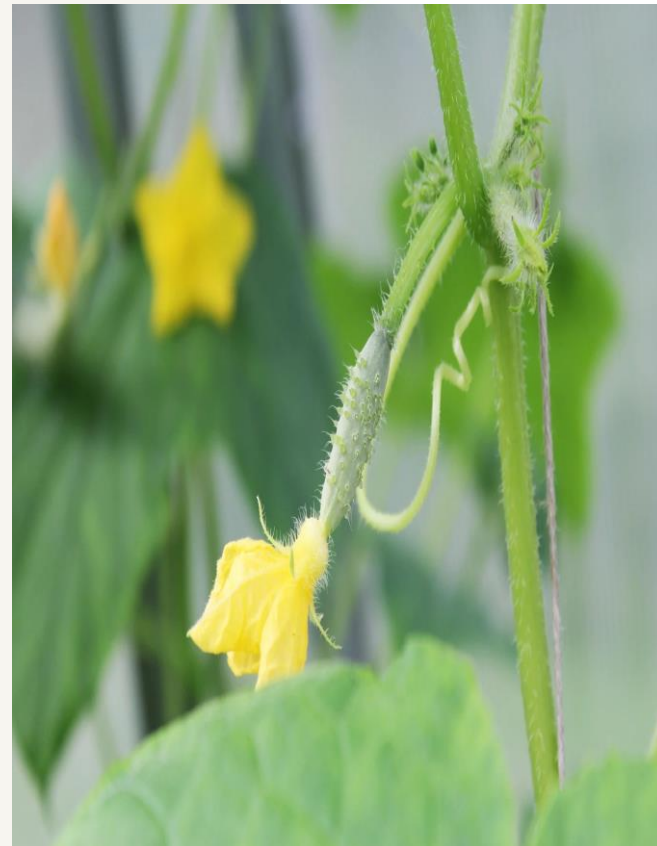

We specialise in premium export-grade gherkins, bridging the gap between nature's finest produce and the world's demand for authentic, clean-label ingredients.

Ingredients

# Our Gherkin Product Range

## Whole Gherkins

Premium whole gherkins, carefully graded for size and uniformity. Available in brine, vinegar, or acetic acid pack for global food manufacturing.

## Sliced Gherkins

Precision-sliced to consistent thickness, ideal for sandwich lines, fast food chains, and industrial food processing applications.

## Diced Gherkins

Uniform diced gherkins for relish production, salad dressings, tartar sauces, and ready-meal manufacturers worldwide.

All products available in brine, vinegar, or acetic acid packing | Export-grade quality guaranteed

# Our Gherkin Product Range

## Gherkin Relish

Finely processed gherkin relish with balanced sweet and tangy profiles. Available in custom formulations for private label — fine, medium, or coarse texture.

## Bulk Packs

Large-format bulk supply in food-grade drums, pails, and containers. Designed for food service operators, industrial buyers, and co-packers.

## Custom Solutions

Bespoke gherkin ingredient solutions — custom sizing, seasoning, packing formats, and specifications to your exact manufacturing requirements.

# Quality You Can Trust

*Every batch meets international export standards*

01

## Farm-Level Inspection

Direct partnerships with certified farms. Field inspections ensure pesticide-compliant produce.

02

## Grading & Sorting

Automated + manual sorting for uniform size, colour, and texture.

03

## Hygienic Processing

State-of-the-art facility with strict hygiene protocols and full traceability.

04

## Lab Testing & Certification

Every batch tested for microbiological safety, acidity, and shelf stability.
